Frontend developer looking for a first full-time role in a product team. I design interfaces and code them myself – from mockup to deployment – in React, Next.js and TypeScript. What I enjoy most is where design meets engineering: motion, real-time graphics and live data. I care about performance, accessibility and SEO.

Projects · GOVO DIGITAL, own brand · 2025 – present

01 Tesorra Racing

2026 · govodigital.com/en/projects/tesorra

A racing team site with a custom WebGL2 particle engine in a Web Worker and a camera ride along a road of dust.

Next.js · TypeScript · WebGL2 · Web Worker · Zustand · Zod

02 Moonpatch Farm

2026 · govodigital.com/en/projects/moonpatch

An experience site with a custom WebGL2 engine in a Web Worker: a gate opened by scrolling, a square fading into dusk, camera transitions into three interiors, products on recipe cards and tags, a basket with visit booking and a ticket to save. EN/PL, server-rendered, 60 fps.

Next.js · TypeScript · WebGL2 · Web Worker · Zustand · Zod

03 GOVO DIGITAL portfolio

2026 · govodigital.com

A website as a desktop with a living WebGL2 character – eyes following the cursor, blinking, breathing, chain physics – content windows, PL/EN, SEO and a contact form.

Next.js · WebGL2 · GLSL · Motion · Playwright

Other experience

Warehouse operative – AutoPartner S.A., Pruszków
07.2025 – 10.2026 · processing returns, deliveries, warehouse organisation
